

ARANMULA KANNADI - TRADITIONAL ORIGINAL WONDERFUL ART FROM KERALA

What makes this Mirror so special and expensive?

Aranmula Kannadi, Kerala's Authentic Metal Craft, is regarded as a Metallurgical Wonder. Interestingly, the technical knowledge behind the making of this extraordinary metal mirror is a closely guarded secret. It is known only to certain households in Aranmula.

How is it made?

The unique Aranmula Kannadi is made using a special alloy comprising a combination of copper and tin with trace elements. To achieve the desired reflective surface, intensive polishing sessions are required. Even today, these master craftsmen use indigenous methods and materials to produce these exquisite metal-alloy mirrors. Needless to say, It takes tremendous practice, concentration and patience to produce a fine mirror.
